

Class 1 – EVS (Environmental Studies) Notes

Environmental Studies (EVS) helps students learn about their family, surroundings, plants, animals, and good habits. These lessons help children understand how to care for themselves and the world around them.

1. My Family

- A family is a group of people who live together and care for each other.
- Families love, support, and help one another.

Types of Families:

- Small (Nuclear) Family: Parents and children.
- Big (Joint) Family: Grandparents, parents, children, and relatives living together.
- We should respect, love, and help our family members.
- Always listen to elders and care for younger members.

2. Our Surroundings

- Surroundings include everything around us such as our home, school, and neighborhood.
- We must keep our surroundings neat and clean.
- Do not throw waste on roads or public places.
- Always use a dustbin for garbage.
- Clean surroundings keep us healthy and safe.

3. Plants and Animals

Plants:

- Plants are living things that grow and need water, air, and sunlight.
- Plants give us food, oxygen, wood, and medicines.

Animals:

- Animals are living things that move and need food and water.
- Domestic animals live with people (cow, dog, cat).
- Wild animals live in forests (lion, tiger, elephant).

4. Good Habits

- Good habits keep our body healthy and our mind happy.

Examples of good habits:

- Brush your teeth twice a day.
- Wash your hands before and after eating.
- Take a bath every day.
- Keep your clothes and room clean.
- Be polite and say 'Please' and 'Thank you'.

Activities

1. Draw your family and name the members.
2. Name three plants you see around you.
3. Name three animals (domestic or wild).
4. List two good habits you follow every day.

Learning Outcomes

- Students will understand the importance of family and respecting elders.
- Students will learn to keep their surroundings clean.
- Students will identify basic plants and animals.
- Students will develop healthy daily habits.
